FOR IMMEDIATE RELEASE

CITCO Water and Aulick Chemical Solutions, Inc. Partner to Expand Chemical Solutions
CITCO and Aulick Create Synergies in Water and Wastewater Treatment Industry

For more than nine decades CITCO Water has been serving the water and wastewater industries with the goal of offering customers everything needed to “take water from the source, deliver it to the consumer, and return it back to the source again.” CITCO Water sums up this mission in four simple words: “Solutions driven. Commitment given.”

Today, CITCO Water is proud to announce the addition of Aulick Chemical Solutions, Inc. to the CITCO Water family, forming the most robust Chemical Solutions offering in our region with an impressive team of experts, complete range of innovative products, and knowledgeable sales team to help you with all your chemical needs.

Founded in 1931 in Huntington, WV by Charles Irving Thornburg, CITCO has been family-operated ever since Web Morrison purchased the company in 1958. The organization has since grown to employ over 140 people across West Virginia, Kentucky, Tennessee, Pennsylvania, South Carolina, and Virginia. Today, CITCO Water offers six sub-brands to provide customers with comprehensive waterworks solutions including chemical, smart meter, integrated tech, hardware, inventory, and repair.

Aulick was founded by Tim and Dawayna Aulick in 1999 in Cynthiana, KY. Now in their 25th year of business, Aulick services customers in more than 22 states out of their headquarters in Nicholasville, KY. With their devotion to problem solving, Aulick has developed a complete portfolio of solutions that includes odor and corrosion control, disinfection, blended phosphates, activated carbon, phosphorous removal, solid-liquid separation and more.

“Aulick’s strength in wastewater treatment and decades of expertise in chemicals manufacturing and management are the perfect complement to CITCO’s established CLEAN Chemical Program. Their fit with CITCO Water could not be better and we look forward to leveraging the strengths of both companies to offer all our customers even more; more product offerings, more access to inventory, more expertise, more support. This partnership is a game-changer.” – Jeff Morrison, CITCO Water CEO

The combination of CITCO Water and Aulick Chemical Solutions means the formation of what is certainly *the* most robust chemical solutions company serving the water and wastewater industries in our region.
