Citra-Sweet

Citra-Sweet is a water based, biodegradable, non-hazardous citrus based cleaner/degreaser. It's designed to remove lubricating oils, dirt, and greases from floors, machinery, stamping dyes, plastics and rubber.

Citra-Sweet has specific ingredients that emulsify soil on contact, which extracts the soil and becomes part of the cleaner. Citra-Sweet contains a corrosion inhibitor, which keeps the cleaner from attacking the surface while cleaning. It also contains natural citrus distillates for greater grease removal.

For your protection, wear safety glasses and gloves while using Citra-Sweet. Do not allow to dry on the surface or freeze and take all precautions on the Safety Data Sheet.

Specifications

- Specific gravity: 8.2 PPG
- pH: 8.2
- Freezing point: 32°F
- Odor: citrus

Applications

- Heavy equipment
- Concrete floors
- Rubber/plastic
- Industrial machinery

Availability

Citra-Sweet is available in 1 gallon jugs, 5 gallon pails, 55 gallon drums, and 330 gallon totes.
