TC-Plus

Truck Cab Wash & General Degreaser

TC-Plus is a biodegradable, foaming degreaser used in heavy equipment cleaning applications. TC-Plus does not contain ingredients considered hazardous and may be used as a remover of tar, asphalt and graffiti as well as a lift station degreaser. With a pH of 10, TC-Plus cleans all surfaces, grease traps and metals.

Directions: For manual washing, dilute one part TC-Plus to 12 parts water. Spray or brush diluted wash onto painted, non-painted or glass surfaces and rinse with water.

Apply generous amount of TC-Plus to grease and agitate with water to clean walls and remove grease. Do not allow TC-Plus to dry on surface or freeze. Take precautions and use recommendations on the Safety Data Sheet.
