TT-33

Ultra Concentrated Industrial Degreaser

TT-33 is a cleaner/degreaser designed to quickly dissolve and remove grease and oils associated with volatile paint and grease components. The concentrated formula is one of the strongest on the market. TT-33 emulsifies oil and grease on contact and prevents the soil from redepositing on cleaned surfaces.

Directions: TT-33 is corrosive material. For your protection, wear safety glasses, rubber gloves and proper safety protection attire when using TT-33. Take all precautions and use the recommendations on the Safety Data Sheet. For heavy build up applications, dilute with water 4:1. Spray on affected area and rinse with water. TT-33 may be diluted to clean surfaces with light build-up. Before widespread use, test product on inconspicuous spot to check for deleterious effects. For other specific applications, contact your Aulick consultant.

Specifications

- Specific gravity: 8.7 PPG
- pH: 12.5
- Freezing point: 32°F
- Odor: mild, sweet

Applications

- Rendering plants
- Heavy grease cleaning
- Restaurant equipment
- Industrial machinery

Availability

TT-33 is available in 55 gallon drums and 330 gallon totes.
