Jackpot LS

Lift Station Odor Control Device

The Jackpot LS is a stainless steel odor control device designed to remove odor in the form of hydrogen sulfide, mercaptans, and organic odors that emanate from lift stations. The Jackpot LS utilizes CITCO Water's activated carbon in an easily maintained and replaced media cartridge.

Features and Benefits:

- Durable stainless steel construction
- Simple lift station installation
- Replaceable activated carbon media cartridge
- No power supply needed
- Easily maintained
- Customizable - fits most lift stations
- Available with media cartridge subscription service (Jackpot MCS Advantage)
- Space for hydrogen sulfide gas testing
- Odors removed by adsorption
- Eliminates sewer odors and rotten egg smell from municipal lift stations
- Prevents/resolves community and residential odor complaints
- Tested and proven to control odor in harsh environments
- Arrives installation ready
